BUILT WITH MASTERBOARD

THE PITFALL OF FLEX PRINTING

A great idea, lost in poor execution.

Inferior materials diminish the effort behind your creative vision and fail to deliver the desired impact.

THE RISK OF CHEAP BOARDS

Would you compromise on quality when your brand faces the customer?

Your carefully curated brand image can be spoiled, destroyed, or compromised at the last mile by the wrong board selection.

SUPERIOR QUALITY: SIGNMASTER IN ACTION

When every pixel speaks quality, only SIGNMASTER delivers life-like perfection.

SIGNMASTER boards have a 7X quality difference compared to ordinary boards in the market, ensuring your brand communication stands out.

WHY SIGNMASTER MATTERS?

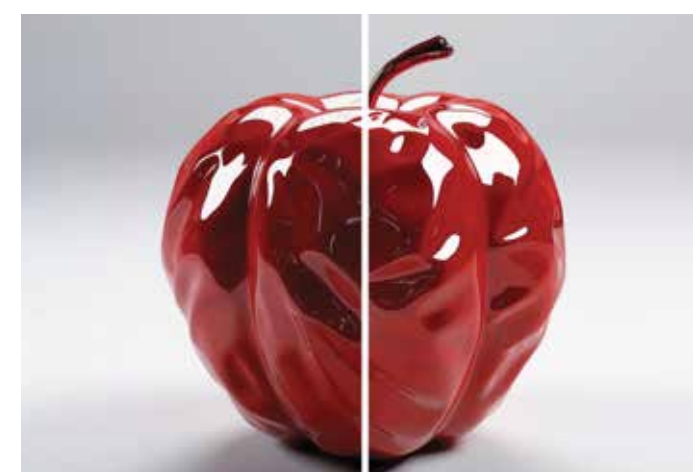

SUPERIOR PRINTABLE SURFACE

Ensures vibrant, true-to-life colors that enhance your communication.

UNCOMPROMISING DURABILITY

No cracking or fading – because your message deserves to last..

GLOSSY AND MATT OPTIONS

Tailored to your specific branding needs.

22 YEARS OF GLOBAL TRUST

Used by the best brands, exported to 15 countries.

BEWARE OF CHEAP IMITATIONS!

Some printers may charge you SIGNMASTER prices but print on low-grade boards.

DON'T LET YOUR BRAND IMAGE SUFFER. MAKE THE SMART CHOICE TODAY.

If you want to procure SIGNMASTER or contact details of a printer using Masterboard in your area, visit our website for more information or call us today at 1800 180 6437 (Toll Free).

DON'T PAY A PREMIUM FOR DULLNESS. GET **7X** THE QUALITY INSTEAD!

After all your effort in creating a masterpiece, how would it feel to see it ruined by a low-quality board? That's where our precision comes in. We use a **Gloss Meter*** to measure the surface reflection of our boards, ensuring a consistent, high-quality finish. With a gloss level of 35.1, our boards deliver vibrant, sharper prints, richer colours, and a premium feel that makes an impact. Because your brand deserves the best!

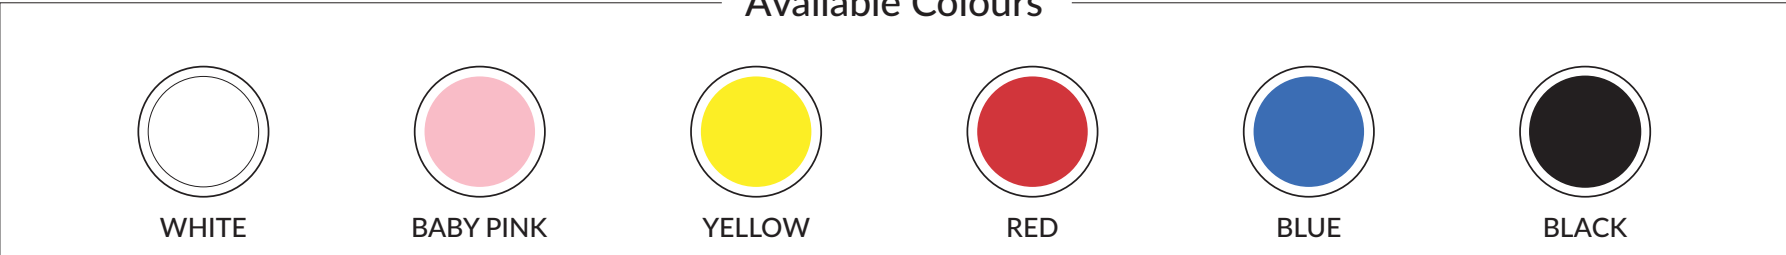

*A Gloss Meter is an instrument that measures how much light reflects off a surface. It helps ensure your prints have the perfect finish. A higher gloss level means sharper images, richer colours, and a professional look that stands out.

Disclaimer: The superior quality and performance of SIGNMASTER boards are optimized when used with high-quality inks and professional-grade printing machines. Results may vary with substandard inks, poor techniques, or low-quality equipment. To achieve the best output, we recommend working with trusted printers who exclusively use SIGNMASTER boards and high-grade printing solutions.
